1 Please do not use the Yucca Mountain site! I do not want trains or transports of any type coming thru our city. I have opposed nuclear power from the very beginning and i certainly dont want the waste products coming thru here. I have personally seen problems from the plant in Tennessee and that was a main reason for moving here. One mistake can have devastating results for thousands of years. Especially after the terrorists attack, I see how easy it could be to destroy our homes, children, or our lives. Put it in your back yard if you want it. I am making this a mission to keep this out of the St.Louis area. I am keeping track of how every representative etc votes and will use my votes to express my concerns. Please dont do this, try a different solution. Sincerely, Sherry Larko
